

# Tower 1~3K Online UPS

## Datasheet (220V PF0.9 IEC62040)

### Feature:

#### **Zero Transfer time**

True Double Conversion Online UPS, Provide most comprehensive protect mission critical equipment from wide range power quality issues

#### **DSP Digital Control Based**

Advance DSP base digital control bring high performance of high input Power factor, low distortion , supply the load with perfect sine wave AC power supply

#### **Ultra Wide Input Mains range**

Strong compatible with ultra with electric environment, stay well with ultra wide range mains of 90V~300V, 40~70Hz ,dramatically reduce battery discharge , prolong battery life

#### **Best Loading Capability**

Up to 0.9 Output Power Factor, 50/60 Hz Automatically adapting, selectable voltage , perfectly match all kind of application

#### **Genset Compatible**

Capable of work with wide range of Genset, isolate fluctuation and noise from Genset , provide stable and clean power supply to the user equipment.

#### **High Input power factor**

Thanks to digital controlled PFC Technology, >0.99 input power factor, effectively avoid power pollution , save energy expense for customer

#### **Reliable design**

Made with strong Glass fiber base (FR4) double side PCB, company with large span component, greatly improve reliability in harsh environment, Well designed ventilation and conformal coating , avoid dust accumulation ,improve resistant to corrosion

#### **Open to customization**

Based on powerful controller and open architecture, the product is able to be customized to match need of integration of automatic system or intelligent supervisory system

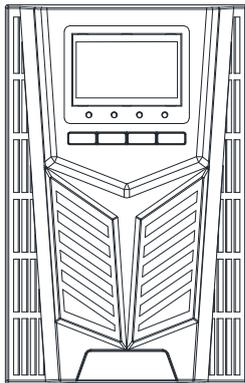

## Specification:
